

Chocolate

"Mr Wonka suddenly exploded with excitement. 'But my dear boy,' he cried out, 'that means you've won!'"

As ICT experts we will:
Learn to use basic programming and to use the internet safely for carrying out research.

In PE we will:
Learning gymnastic routines and learning the skills involved in invasion games.

As Designers we will:
be studying food products. We will be tasting chocolate and investigating what it is made from and designing and making our own chocolate and improving it as we go.

In our Spiritual and Moral work we will:
explore fair trade and try to find out why some people in the world get paid more than others when they produce chocolate. We will explore our feelings when we see cocoa farmers and the work they do for their money.

As Enterprising people we will:
explore the impact of our actions by looking at the products we buy. We will discover a word called 'ethics' and we will present a short talk on fair trade.

As Mathematicians we will:
Explore place value up to 1000, learn how to add and subtract using models and written algorithms, multiply and divide by 3, 4 and 8, and solve word problems.

In English we will:
Explore a range of texts to help us learn how to be good at using inference and deduction. We will learn to write letters, biographies, and fantasy scene settings. Our grammar focuses will be to learn to use inverted commas for speech and paragraphs.

As Geographers we will:
Be studying countries that grow cocoa beans. We will be exploring the weather and its effect on crops. We will also explore how the world is linked by the trade of food. We will ask where our favourite foods come from and how we need to keep good relationships with other countries of food supplies.

In RE we will:
Learn about beginnings and births in Christianity and Judaism.

As Artists we will:
sketch and develop our drawings to collect information about the food and features of different countries and use these to create advertising campaigns for our own chocolate product.

As Scientists we will:
Be learning about the changing state of materials as well as exploring how eating chocolate impacts on our teeth and balanced diet.
We will be using our taste buds to explore different tasting foods, including different types of chocolate!

As Musicians we will:
Learn Samba with Bradford music services.
