

English

Our English journey begins by looking at poetry using 'The Sound Collector'. The children will be then looking 'Billy's bucket' and 'Harry and the Bucketful of dinosaurs'. We will be writing descriptions and stories based around these books.

Maths

In Maths we begin with place value. The children will be exploring 2-digit numbers. We will be focusing on mental maths skills, especially number bonds.

Science

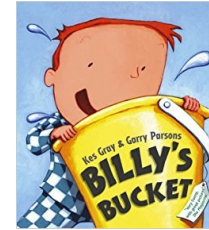

In Science the children will be making observations, describing, measuring and making predictions in a range of experiments such as 'there's a hole in my bucket.'

Topic

The children really did have 'Buckets of fun' during our hook day on the second day back where they played a prank on Miss Mawson and challenged Mr Tolson to do an ice bucket challenge. We will think about our Local area before naming and locating the Continents and Oceans. In Art we will be designing and making our own buckets using different materials.

Buckets of Fun!

How many things can you do with a bucket?

RE

Our topic for this term is 'Special People.'
Who is special to you?

PE

PE will be games on Wednesday and we will need outdoor kit as we will be taking the children outside. On Monday we will need inside kit for our gymnastics lessons.

ICT

We will be using the iPads to take photographs and record videos. We will use Purple mash on laptops to paint and give directions.

Music

We will be learning to use our voices creatively to sing songs/rhymes that support our learning in Maths and Geography.
