

# Body Percussion

slap

Here are two videos to watch....

Here is an incredible video of a choir making the sounds of a thunderstorm with just their bodies!! Listen out for the quiet and loud **dynamics**...

- Can you copy their actions?

*Angel City Chorale perform "Africa"*

<https://youtu.be/-c9-poC5HGw>

Have a go at your own body rhythm by joining in with this video.

- Can you keep in time with the music? How accurate can you be?

*Can't Stop the Feeling body percussion*

<https://www.youtube.com/watch?v=92gf8dAlhUw>

# Body percussion

Here is a body percussion challenge.

- **Can you design your own song using just body percussion?**
  - Start by counting how many sound effects you can make with just your body. You could start with:
    - Clapping your hands
    - Clicking your fingers
    - Stamping your feet
  - Notice how each sound effect is different – they can be loud or quiet (dynamics) or they could be high or low (pitch).
  - Try joining the different effects together to make different rhythms.
  - **If you're feeling adventurous you could design a sound effect song – maybe about the Jungle, Under the Sea or a Haunted House!**

**Try recording your piece and submitting it to Dojo or Twitter!**
