

WC 1st February 2021

LI: To select from and use a range of tools and equipment to perform practical tasks.

I can plan to make a functional roof.	
I can use tools safely	
I can make choices about my design	

Make a tudor style house using an old box. Look carefully at the beams and thatched roof.

The challenge is to make a triangular stable roof (we call this an apex) and an door that opens. You can plan to do this anyway you like. This is one that someone made in another school.
