LI: To use apostrophes for contractions.

I am able to understand the use of an apostrophe	
I am able to understand the difference between the contracted and expanded form.	

**Expanded form:** In the morning, **they will** be going on holiday.

**Contracted form:** In the morning, **they'll** be going on holiday.

Find the words which can be contracted and circle them.  
Then rewrite the sentence and the words in their contracted form in your books.

It is believed that the fire was started in Thomas Farrinor's bakery and he was not awake when the fire started.

People ran and screamed and jumped into the boats as they did not want to get hurt.

Buildings were pulled down so the blazing fire could not spread any more.

The cold winds did not help as they spread the fires widely.
